

Driving Sustainability for Our Future.

Multifunction B & W

Multifunction B & W

Environmental Features & Customer Benefits

AUTO DUPLEXING

Printing and copying on both sides of the paper, cuts paper bills in half, saving trees.

DO NOT PRINT BLANK PAGES

Reduce paper waste by eliminating the printing of blank pages within a document.

ENERGY SAVER TIMER

Sets the amount of time the machine waits before switching to Low-Power mode. The machine is not turned off completely.

ENERGY STAR CERTIFIED

Certification that the US Government approves the device as energy efficient in design and specification. Energy Star certified products contribute to a more energy-efficient world and help keep your running costs affordable.

ELECTRONIC PRODUCT ENVIRONMENTAL ASSESSMENT TOOL (EPEAT)*

EPEAT is a comprehensive procurement program. This rating program includes energy efficiency, take-back programs for equipment, packaging and consumables, reduction/elimination of environmentally sensitive substances and other important environmental attributes.

Multifunction B & W

Environmental Features & Customer Benefits

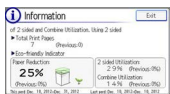

IMAGING EQUIPMENT RECYCLING PROGRAM

We offer customers convenient recycling options for end-of-life imaging equipment.

INFORMATION SCREEN - ECO-FRIENDLY INDICATOR

Screen helps increase awareness on impact each user has on the environment as a function of the amount and type of jobs they produce.

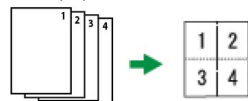

LOCKED PRINT

Reduce paper waste by only printing documents released by the user with a password at the machine. This also ensures confidential documents are kept safe.

N-UP PRINT/COMBINE COPY

Printing or copying multiple pages of a document on to one page saves paper.

POWER ON/OFF TIMER

System can be turned on or off at specified times allowing customers to match system availability and power consumption to their work schedule to reduce costs.

QUICK START UP

Fast warm up and recovery times, speeding job queues and maximizing customer satisfaction while saving energy.

RECYCLED PAPER

Using old paper to make new paper uses 30 to 50 percent less energy than making paper from trees.

Multifunction B & W

Environmental Features & Customer Benefits

ROHS COMPLIANT

Ricoh products comply with the RoHS (Restriction of Hazardous Substances) directive that bans the use of certain substances in electrical and electronic equipment products.

SAMPLE PRINT

Outputs a single set before committing the system to a lengthy print job that could result in errors and waste. If the sample set is acceptable, the user can release the balance of the print job; if changes are required the job can be modified or deleted.

SLEEP/ENERGY SAVER MODE

Machines can be automatically programmed to enter energy saving modes such as Panel-Off mode, Energy Saver (Low Power) mode, or Auto-Off/Sleep mode.

STAPLELESS FINISHER

Bind up to five sheets of paper with no staples using Ricoh's new and exclusive Stapleless Stapler Finisher option. This unique technology helps lower supply costs, free up document storage space and expedite future paper shredding needs.

TONER CARTRIDGE RECYCLING PROGRAMS

Ricoh branded toner containers and cartridges can be returned to us for environmentally friendly recycling. See www.ricoh-usa.com/recycling for details.

TONER SAVE MODE

Toner Saver Mode is an effective way to reduce printing costs with less toner than usual. This is convenient when print outs are needed for internal viewing.
