

# RICOH ProcessDirector

Enterprise-Grade Production Orchestration

**Greater efficiency, control and confidence**  
across data-driven operations

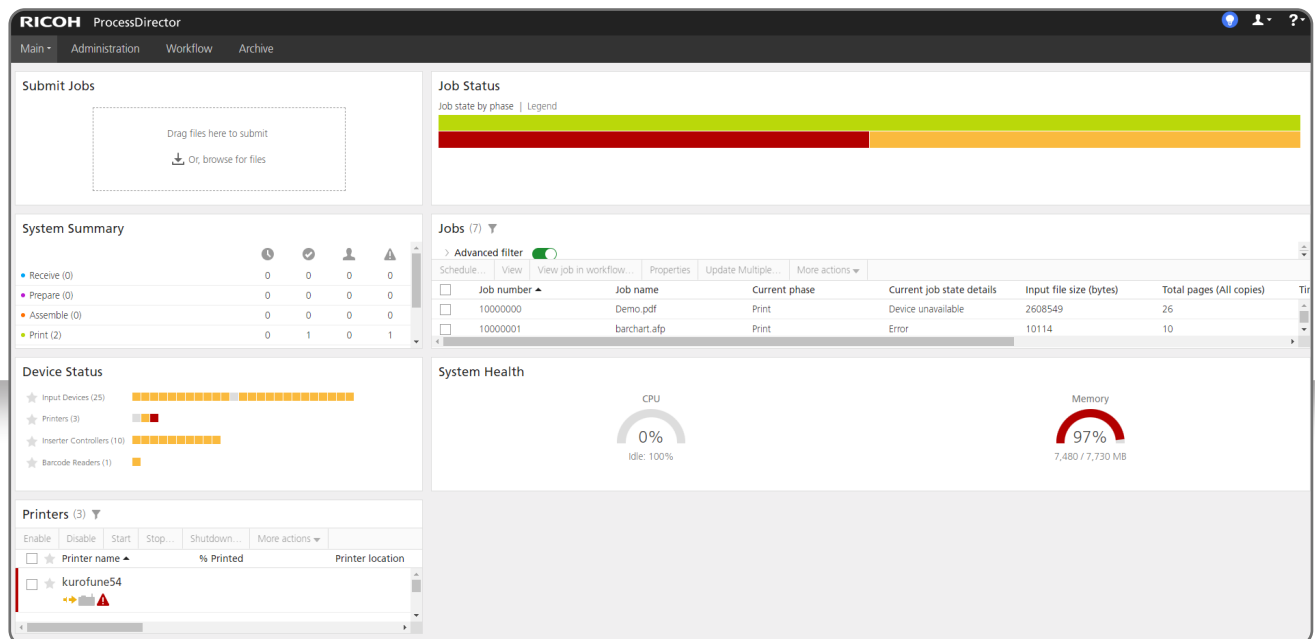

**RICOH**  
imagine. change.

# When **integrity, scale and connectivity** matter

RICOH ProcessDirector delivers structure, visibility, and consistency across complex, higher volume operations. Built on open architecture, this globally proven solution manages data and processes across connected systems to ensure accurate, predictable outcomes, even as volumes increase.

- **Ensure output integrity** across documents, printer pieces, jobs, and delivery formats
- **Provide secure, auditable, piece-level visibility** across your entire operation
- **Improve profitability** by reducing manual efforts, errors, rework, and waste

## Extend your capabilities with these integrations

- **Increase visibility into production volume, device throughput, and operator productivity** with the **RICOH Predictive Insight** integration
- **Add variable data composition and imposition capabilities** by leveraging the **FusionPro Connect** feature to integrate with a FusionPro Server

# Increase efficiency and empower your production team

## Enhanced output management

Put all your systems and equipment to their best use by helping to integrate disparate and legacy systems, simplifying every step of the production output process.

Vendor-agnostic device connection to enhance overall productivity | Immediately identify missing pages | Save time by working with fully composed PDF files using rules-based processing

## Workflow automation

Easily build complex workflows to compose, transform or optimize your data for delivery, no matter the job size. Reduce the number of manual touchpoints, avoiding costly errors.

Quickly build customized workflows with a simple drag-and-drop interface | Create a full audit trail | Consistently meet deadlines to maintain SLAs and customer satisfaction

## Tracking and compliance

Aid in tracking and compliance efforts by monitoring documents from receipt to delivery, allowing for greater transparency to satisfy customer inquiries and meet critical SLAs.

Easily research and generate a piece-level audit trail | Verify that every piece is produced accurately | Create user groups to control access for greater security

## Postal optimization

Streamline mail handling and achieve savings by using intelligence to minimize pages to reduce weight, qualify for optimal postal discounts, and reduce wasted postage.

Minimize return mail costs by performing postal cleansing to update addresses | Electronically pre-sort documents to maximize postal discounts | Save time by working with fully composed PDF files

## Multi-channel delivery

Manage multi-channel communications to deliver personalized documents through the customer's preferred channels by integrating delivery preferences into workflows.

Integrate with your systems to ensure customer communication preferences are met | Communicate through multiple media with the same message for consistency | Send automated emails via the workflow

## RICOH ProcessDirector **Next Steps**

Connect with your Ricoh sales representative to request a complimentary demonstration or trial to discover how RICOH ProcessDirector can help bring greater efficiency, control, and confidence to your operations.
