Intelligent Managed Print Services

Reimagine Print. From Cost Center to Business Enabler.

Why Print Must Evolve

Print is no longer a static output function. In today's digital workflows, it must be **intelligent, connected and secured.**

Organizations now view print as a strategic enabler, not just an operational necessity. As hybrid work expands, compliance demands grow and sustainability pressures increase, print must evolve.

Key forces driving change include:

Shifting Workstyles
Secured, seamless print access across hybrid teams.

Data-driven Insights
AI and analytics drive visibility and optimization.

Security & Compliance
Advanced protections are essential as print-related data risks rise.

Sustainability & Cost Pressures
Businesses must balance ecological goals with reducing IT burden and costs.

Information as a Strategic Asset
Digitization and AI integration turn documents into business intelligence.

> **67% of firms experienced print-related data losses,** highlighting why secured print solutions are essential.
>
> — Quocirca, 2024.

> **Modular MPS frameworks can cut IT burden by up to 30%,** helping businesses work smarter and more cost-efficiently.
>
> — Keypoint Intelligence, 2024.

Ricoh's Continuous Optimization Approach

Ricoh Intelligent MPS isn't a one-size-fits-all program. It's a **vendor-agnostic, modular and scalable framework** designed for SMBs and mid-market organizations, with the flexibility to support enterprises as they grow.

At the core is **continuous optimization**—combining automation, analytics and flexible services to transform print from a cost center into a driver of measurable business outcomes.

Unlike static fleet management, Ricoh Intelligent MPS is a **living, adaptive framework** that scales with your business, ensuring security, efficiency and long-term transformation.

Compliance & Governance
Meet audit and security requirements with confidence.

Automation Relief
Streamline routine tasks and ease IT workloads.

Cost & Usage Insights
Get real-time visibility to control waste and spending.

Hybrid & Sustainability
Support flexible work while advancing green goals.

Four areas of focus designed to deliver measurable business results.

Modular by Design, Scalable by Nature

RICOH Intelligent MPS adapts as your needs change, ensuring print stays a driver of digital progress.

Visibility & Control
Real-time dashboards and compliance-ready reporting make print predictable, measurable and audit-ready.

Scalability & Simplicity
No device minimums, multi-vendor support and one platform that reduces IT overhead and adapts to any environment.

Future-readiness
Cloud-first, AI-driven analytics and modular add-ons keep your print environment secured, adaptive and transformation ready.

How Ricoh Delivers Value

Ricoh's Intelligent MPS follows a proven methodology that takes you from **visibility to transformation.**

Availability Focused	Optimization Strategy	Integrated Partnership
Tools and insights to manage MPS internally.	Ricoh partners with your teams to optimize and advise.	Ricoh leads your MPS program end-to-end for continuous transformation.
Outcome: Cost Control	**Outcome:** Operational Agility	**Outcome:** Digital Innovation

Ricoh begins by assessing your current print environment, then designs and implements a solution tailored to your needs. From there, **we optimize performance, manage daily operations and provide ongoing guidance** to keep print aligned with business priorities. As needs evolve, new capabilities are introduced to ensure continuous improvement and long-term readiness.
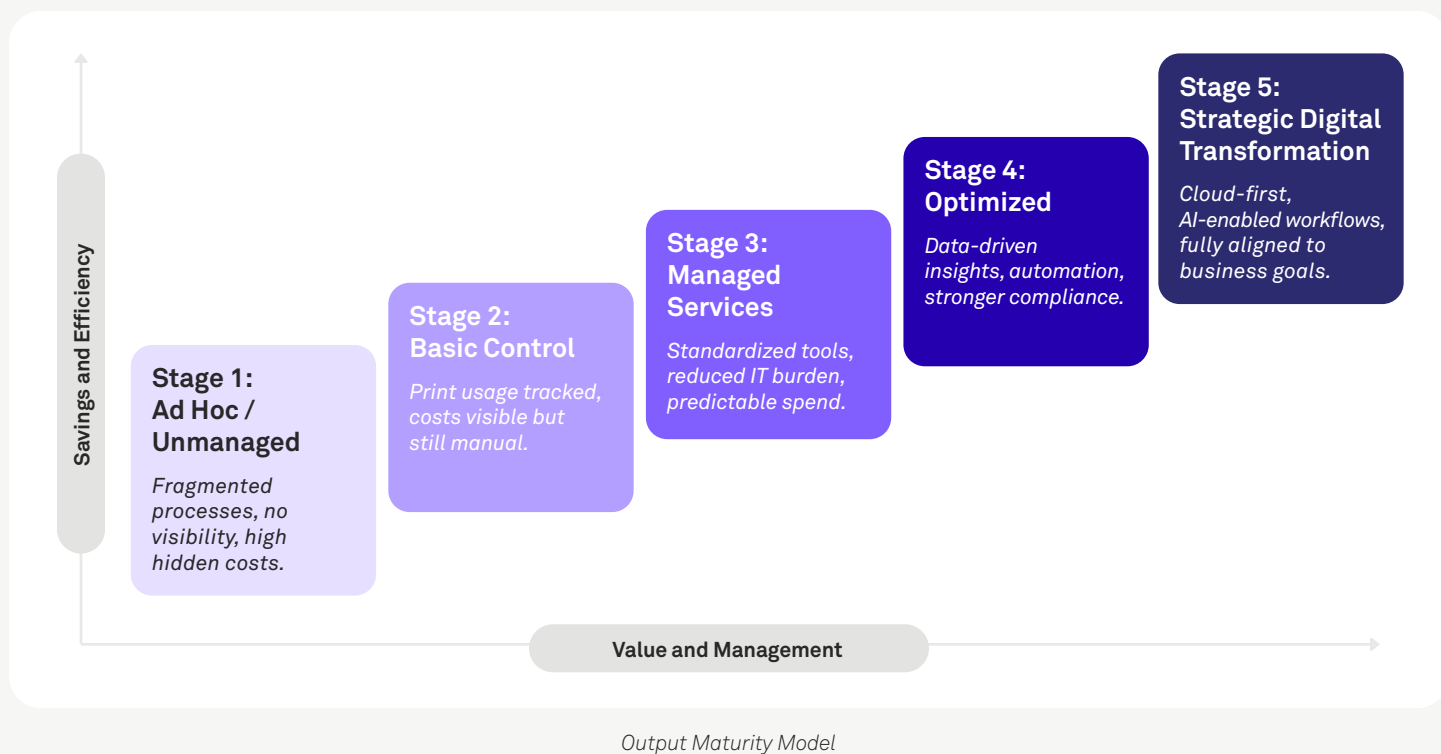

The result:
Lasting optimization, stronger security and sustainable business value—setting the stage for your next transformation.

"

The most valuable part of our partnership with Ricoh is their flexibility. Their willingness to be a real partner. We've worked with Ricoh for decades now, and they go above and beyond for our business.

Your Path to Greater Efficiency and Savings

Savings and Efficiency →

**Stage 1:
Ad Hoc /
Unmanaged**

*Fragmented
processes, no
visibility, high
hidden costs.*

**Stage 2:
Basic Control**

*Print usage tracked,
costs visible but
still manual.*

**Stage 3:
Managed
Services**

*Standardized tools,
reduced IT burden,
predictable spend.*

**Stage 4:
Optimized**

*Data-driven
insights, automation,
stronger compliance.*

**Stage 5:
Strategic Digital
Transformation**

*Cloud-first,
AI-enabled workflows,
fully aligned to
business goals.*

Value and Management →

Output Maturity Model

Every transformation begins with knowing where you stand today. Ricoh assesses your current environment, uncovers cost savings and builds a roadmap to scale print in line with your hybrid work and sustainability goals.

Why Ricoh

With over 85 years of experience as an established global leader, Ricoh provides a comprehensive and reliable portfolio of print, scan and device management solutions built to address the evolving demands of today's organizations.

Our multi-layered approach to security protects sensitive data, strengthens compliance and reduces risk across your environment. With support from Ricoh's global service network, expert assistance is always within reach to keep your operations optimized and running smoothly.

Let's reimagine print—together.

Book a tailored assessment with Ricoh to uncover measurable savings and prepare for what's next.
