

# RICOH TotalFlow BatchBuilder™

Streamlined  
Job Management

Effortlessly manage diverse jobs from  
multiple orders **more efficiently**

**RICOH**  
imagine. change.

# Optimize your short-run production

In the dynamic world of commercial printing, staying ahead requires optimizing every workflow aspect. RICOH TotalFlow BatchBuilder, with its vendor-agnostic design, can help streamline your operations by reducing manual intervention. This intuitive solution boosts productivity, minimizes errors, and lowers costs, enabling you to produce more jobs with greater precision and speed. With advanced roll management, integration with existing systems, and enhanced finishing efficiency, BatchBuilder can ensure your print process runs at peak efficiency by the grouping of like jobs.

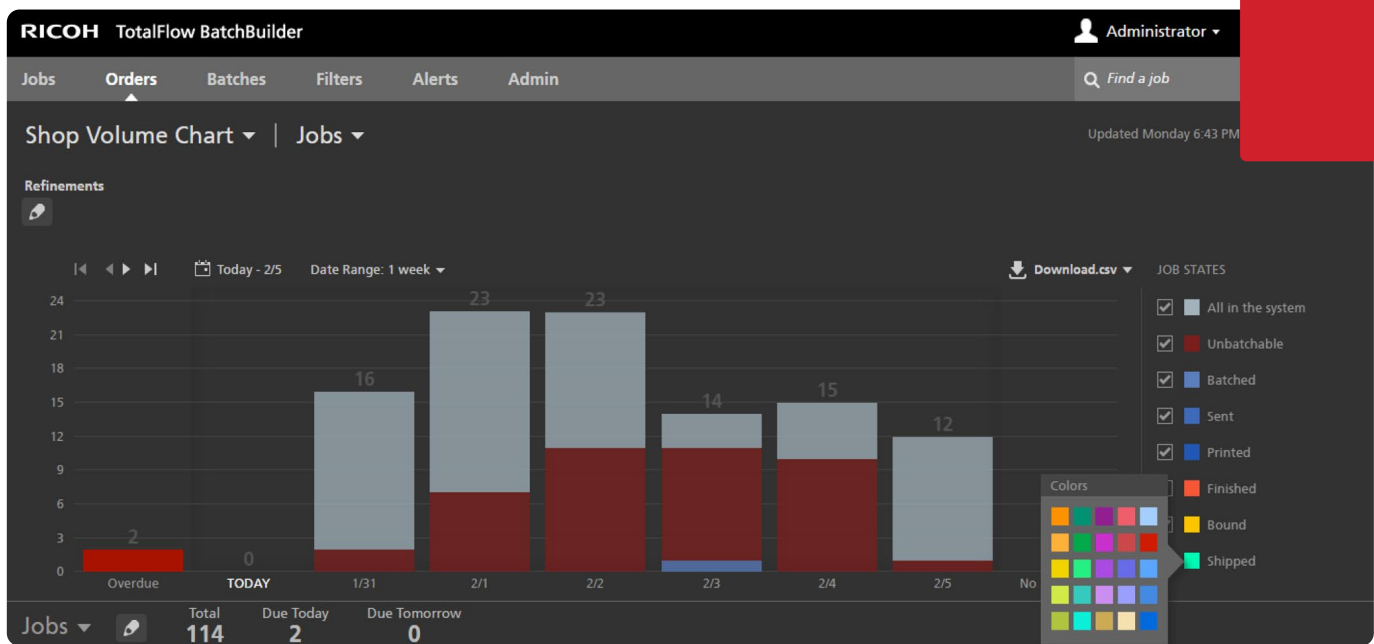

- **Enhances workflow flexibility** by adapting to your existing processes
- Allows for **faster short-run production scheduling** to drive improved efficiency
- **Tailors your production schedule automatically** by a variety of chosen criteria such as paper type, document size, finishing styles and more
- Uses an **intuitive interface to easily manage, view and locate orders** at any point in production

## Take your business to an elevated level of efficiency

RICOH TotalFlow BatchBuilder integrates with the imposition application, **Ultimate Impostrip®**, to automatically arrange print jobs on a sheet in the most efficient manner possible.

- **Simplifies and connects imposition and ganging activities** to your current workflow
- **Maximizes paper use and reduces waste** by minimizing blank sheet space
- **Increases imposition processing** with the easy management of mixed templates and irregular shapes

# Drive profitability with RICOH TotalFlow BatchBuilder

## Reduce Labor Costs

By automating order entry, prepress tasks, job batching and minimizing back and forth setups and paper changes, BatchBuilder significantly reduces the amount of labor required to manage short-run jobs.

## Optimize Material Usage

Advanced roll management ensures efficient use of materials, reducing waste and maximizing your resources.

## Increase Throughput

BatchBuilder's ability to handle a large variety of short-run jobs quickly and accurately means you can complete more jobs in less time and take on more orders.

## Enhance Efficiency

BatchBuilder serves as the central job tracking hub, ensuring complete job visibility throughout the production process. It seamlessly manages jobs across different manufacturers and press types, whether sheet-fed, continuous feed, or wide format.
